

ASPARTAME - Public Service Message

PUBLIC SERVICE ANNOUNCEMENT

FOR IMMEDIATE RELEASE 4/11/05

PLAINTIFFS WANTED WITH ASPARTAME BRAIN TUMORS

Liability lawsuits are being prepared for New York and New Jersey consumers of aspartame who developed brain tumors in the last 3 years. If you ingest this chemical and live in one of these states and have suffered this tragedy, you may qualify as a plaintiff.

Aspartame is sold as NutraSweet, Equal and Spoonful , and is in thousands of foods and soft drinks such as Diet Coke. Since the 70s the manufacturers knew it produced brain tumors in lab rats. The FDA has received more consumer complaints on this chemical than all other food additives combined.

For information and medical evidence on aspartame toxicity visit <http://www.dorway.com/> and <http://www.holisticmed.com/aspartame>
For TV film Sweet Misery: a Poisoned World contact <http://www.soundandfuryproductions.com> or
